

Geography - 2011 Census
2011 Output Areas - Part Removed - Postcodes

Of the 46,351 Output Areas (OAs) created, there were 339 that were non-contiguous because the polygons were separated by other output areas. It was agreed that we remove one of the polygons to make the OA whole. This is a purely cosmetic exercise. The OA part to be removed is the part which does not contain the master postcode. In the majority of cases this is the smaller of the two (or more) parts of the non contiguous OA. However, in a few instances it may be the larger part simply because the smaller part is more dense and the master postcode has been assigned to it. The parts of these non-contiguous OAs were merged with adjoining OAs to create single polygon OAs, where possible. This did not affect the census statistics, calculation of the master postcode, the 'higher area' assignment or the area calculation for the OA all of which were based on all of the constituent parts of the OA.

The listing below provides the output area code and postcodes affected by the removal of smaller parts of non-contiguous OAs.

OutputArea2011Code	CouncilArea2011Code	Postcode	Is Postcode Non-contiguous
